Over the course of twelve chapters Mark Thompson, one of the presenters on BBC One's Stargazing Live and the resident astronomer on ITV's The Alan Titchmarsh Show, will take you on a journey through space, tackling the key concepts of astronomy and unlocking the secrets of the sky. From the origins of our Universe to the ever evolving techniques used to explore deep space, A Down to Earth Guide to the Cosmos traces the journey of galactic discovery that has obsessed mankind for thousands of years. Accompanying the narrative, a series of monthly sky guides focus on the astronomical highlights visible at each given time of year, with handy charts to show you exactly what to look for and how to navigate around the sky at night.
